## **DETAILED ACTION**

### ***Response to Arguments***

Applicant's arguments filed 8 September 2004 have been fully considered but they are not persuasive. Applicant argues that Farley does not show conversion of an input into the binary numbers shown in Figure 9. The Examiner respectfully disagrees. Farley discloses generating each of the three binary bits based on series of comparators (column 7, lines 29-52). These 3 binary bits represent the *inputs* used to generate the truth table of Figure 9.

### ***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
